By recycling your used oil and oil filters you can help keep Delaware beautiful.

Silent oil spills happen everyday in New Castle County

By recycling your used oil and oil filters you can help keep Delaware beautiful.

What else can I do to help prevent oil pollution?

- Check your vehicle for oil leaks and drips on a regular basis. When you find a leak, fix it promptly.
- Collect oil in containers with a tight fighting lid. Old milk jugs are perfect!
- Never dump motor oil, antifreeze or other engine fluids down the storm drain or into the ground.
- Wash your car at a car wash that filters water, this will prevent oil from your car to enter the ground water.
- Use ground cloths under your vehicle whenever doing engine repair. Clean up all spills that happen in a timely manner.

Other ways to keep Delaware beautiful starting in Your Backyard

- Always pick up your doggie’s doo! Doggie doo can wash into our streams and rivers and introduce disease-causing bacteria.
- Pick up litter from your yard and storm drains.
- Use natural products whenever possible! Toxic substances like insect sprays and moth balls should be used as little as possible.
- Plant more trees and flowers! It will make your yard more beautiful, and make it more difficult for chemicals to reach waterways.
- Recycle as much as possible! Have an item you don't know where to recycle? Check out the website below.

FOR MORE INFORMATION:
For more information on places you can recycle your motor oil, contact your local service station, hazardous waste collection program or call The Citizens Response Line at 1-800-404-7080 or the Partnership for the Delaware Estuary at 1-800-445-4935.

Have you seen someone dumping oil? Report it at www.302stoppit.org or call 302-786-7748
